Bluetooth Reader

Access Control

BLE-500-B

The BLE-500-B is a "mobile-ready" outdoor IP67-rated smart-card reader which also supports Bluetooth for smart-phone users preferring not to carry an actual smart card - using smart-phones as an access control "mobile credential". It is supplied with a single gang and mullion mount mounting adapter which allows installation to almost any surface. It's ideal for securing doors, parking gates, turnstiles or most any security device. It has a built-in Wiegand-Out port

Features

- IP67 waterproof
- Bluetooth and proximity card reader
- Supports 13.56MHz IC Cards
- Mounts to mullion or single-gang box

Technical Specifications

Communication	Wiegand input / Output RS485
Operating Humidity	20% to 80%
RFID	13.56MHz IC Cards & 2.4GHz (BLE)
Reading Distance	457 cm (bluetooth)
Ingress Protection Rating	IP67
